C393 FROZEN CARBONATED BEVERAGE MACHINE

 TAYLOR®

C393 FROZEN CARBONATED BEVERAGE MACHINE

FEATURES

High Capacity Performance: Three 7-quart freezing cylinders with improved freeze time and recovery keep up with high demand during peak hours.

Operational Efficiency: Indicator lights and audible alarms notify when the product needs replenishing, ensuring increased uptime.

Seamless Flavor Changes: “Push to connect” fittings allow for quick flavor adaptations to meet customer preferences and seasonal demands.

Versatility: Quick change orifices expand flavor options from FCB to fountain syrups, making the possibilities endless.

Flexible Store Layout: Zero-side clearance and modular design maximize counter space, allowing for multiple units in tighter spaces.

Innovative Connectivity: Open Kitchen connectivity enables real-time monitoring of equipment performance from any device, optimizing operations.

Dynamic Merchandising: The light box merchandising feature enhances brand visibility and POS marketing opportunities with vibrant lighting.

Enhanced Visual Appeal: Clear plastic dispensing door and handles attract impulse sales, driving higher profits.
